

Insights Newsletter December 2023

Welcome to the Insights Newsletter!

Hello - as 2023 comes to a close and we shift our focus to 2024, the Alliance is excited to see what the future will hold.

We are continuing to demonstrate private network deployment resources, including our [Uni5G technology blueprints](#), [shared PLMN-ID](#), and [spectrum map](#) at global industry events in 2024, including [MWC Barcelona](#). These essential tools help facilitate private network deployment across verticals.

Be sure to stay tuned throughout the new year to learn more about activities and updates the Alliance shares, including private network case studies, new [white papers](#), [blog content](#), and relevant industry updates, which will serve as invaluable resources for enterprises and industry verticals interested in private network technology.

For the latest updates, make sure to connect with us via [LinkedIn](#) where we frequently share information on upcoming presentations and updated private network resources.

In closing, we wish you a very happy holiday season and all the joy it will bring.

Until next year!
Alliance Leadership

Spectrum Map

Locate globally available licensed and unlicensed spectrum options to address use cases across numerous industry verticals by using the spectrum map available on our [website](#).

Shared PLMN-ID: The Ideal Solution for Your Private Network Deployment

The Alliance's shared Public Land Mobile Network ID (PLMN-ID) enables enterprises and small businesses to successfully plan and deploy a secure 5G private network in locally licensed spectrum. Download the [PLMN-ID white paper](#) to see how this program can help simplify the private network deployment process to address your business needs.
